25X1C artillery piece went to the General Wever Kaserne; and 1 truck [redacted] 25X1C
[redacted] hauled ammunition boxes to the Unteroffiziersschule,
Eiche. Caterpillar tractors [redacted] were seen hauling gasoline 25X1C
drums to the General Wever Kaserne on 23 October. (4)

Field Comments.

- (1) [redacted] the second train observed on 10 October 25X1C
1951 carried a component of the 8th Gds Mecz Div.
- 25X1G(2) [redacted] observed with vehicles moving by road on 22 and
23 October 1951 belonged to the 9th Mecz Div. The division apparently left
the Weisswasser training grounds in the middle of October 1951 and, accord-
ing to other reports, probably returned to its home stations. [redacted] 25X1C
- 25X1C [redacted]. Field exercises scheduled to be held in Kreis Hoyerswerda
from 2 to 15 October were canceled on 10 October 1951.
- (3) The 80th Gds Hvy Tank SP Bn of the 9th Mecz Div is carried in the Panzer-
jaeger Kaserne on Forsterstrasse in Spremberg. The same and another source
reported that the barracks installation was only partly occupied from April
to August 1951.
- (4) The vehicles belong to the unidentified artillery division in Potsdam, which,
besides moving to the Delius Kaserne, apparently also reoccupied the General
Wever Kaserne, where 1,500 troops of the division were last observed in
25X1A February 1951. [redacted]. The ammunition and fuel dump of the
artillery division has been carried to date in Unteroffiziersschule, Eiche,
which is 90 percent destroyed. [redacted]
